

RF Products for forensics and cyber protection

Forensics - Tent

Size:

- 200 cm x 200 cm x 200 cm (L x B x H)

Weight:

- approx. 14,5 kg

Material:

- 100% Polyamid
beschichtet mit Silber + PU Beschichtung
- 100% Polyamid
metallisiert mit Silber, Nickel und Kupfer

Product properties:

- Average shielding effect of up to 85 dB
from 0.03 to 16 GHz

Product description:

- The HF tent is ideal for analyzing confiscated cell phones, WiFi or similar wireless gadgets
- The hermetically shielded HF tent is used for complete shielding for forensic use in halls and buildings.
- It was designed to protect and analyze the equipment seized on site. The devices can be examined directly at the crime scene in an isolated environment
- All radio signals such as WiFi, 4G and 5G are blocked
- It has an access lock and a shielded tent ventilation to allow the people inside to stay for several hours
- A shielded viewing window serves as an overpressure vent flap
- The RF tent has a shielded power supply for a 220V / 5V connection
- Shielded cable hose as entry and exit of the cable routing

Range of application:

- IT Forensics
- Criminal prosecution
- Fight against crime
- Research & development
